Daniil Karasev

Product Manager · FinTech & Payments

B2B & payments product in a large FinTech, I build service and processes from zero and turn it into metrics and money.

Moscow, Russia — open to Remote / EU relocation ◇ daniilkarasev99@gmail.com tg: @Danielkarasev

PROFILE

Product Manager with 4+ years in a top-5 CIS FinTech, where I grew from analyst to owning a product development stream and a cross-functional team of 15. I build service and payment products from zero and turn them into numbers: the large-corporate service line (clients with ≥ €160M/yr revenue) and Merchant & Trade Acquiring — ≈200 retail chains at CSAT 4.9 — built from scratch, ≈€500K + €150K/yr in delivered cost savings, and a 35,000-client post-merger migration. I move the metrics that matter: CSAT 4.4→4.7, logged communications 40→90%, misrouted transfers 55→10%, time-to-market −20% at 90% on-time. English and German at C1.

WHAT I'M KNOWN FOR

- **Build 0→1.** Stood up the large-corporate service line and Trade Acquiring from scratch — ≈200 of Russia's largest retail chains at CSAT 4.9.
- **Turn chaos into metrics & money.** ≈€500K/yr saved by redefining ops for 10 teams; logged communications 40→90%, CSAT 4.4→4.7.
- **Own the full cycle at scale.** Discovery → roadmap → OKRs → delivery for a team of 15; time-to-market −20%, 90% on-time delivery.

EXPERIENCE

Product Manager Jan 2025 — Present

T-Bank (T-Business), the largest online-banks for small, medium and large enterprises, provided by the T-Bank ecosystem. Moscow, RU

After leading the Rosbank integration, took the lead on the corporate service CRM "TWork SME" — a single window for business-client support.

Product management:

- **Strategy & OKRs.** Own the product strategy for the service interface and defended it at C-level; built the annual roadmap and set/defended team OKRs.
- **Team & payments.** Lead a cross-functional team of 15; delivered Payroll & Merchant Acquiring coverage, +0.3 actions/hour → ≈€150K/yr saved.
- Cut time-to-market −20% and held 90% on-time delivery by rebuilding the Discovery→Delivery pipeline; validate major changes with A/B tests.

Delivery management:

- **Complex integration.** Led the service migration of ≈35,000 mid-market & large corporate clients (Rosbank → T-Bank); team of 8; 17,000 migrated, on schedule.
- Optimized the service model and redefined the functions of 10 employee groups → ≈€500K/yr in cost savings.

Business Analyst Oct 2023 — Jan 2025

T-Bank (T-Business) Moscow, RU

Built the large-corporate service line from scratch (group revenue ≥ €160M/yr).

- Built a service system for Trade Acquiring, enabling support for ≈200 retail chains at CSAT 4.9.
- Cut misrouted transfers 55→10% and raised logged communications 40→90% and CSAT 4.4→4.7 via routing logic and analytics.

Project Manager Aug 2022 — Oct 2023

Eastern Express Remote / EU

First product role: launched an international B2C parcel service end-to-end.

- Launched an EU→Russia B2C parcel service from scratch (5,000 MAU); led the web & mobile build, integrating DPD, UPS and GLS APIs; managed partners in Germany and Poland.
